ANDREA BATTAGLINI

Born in Milan 1958.

A native of Milan, Andrea Battaglini has been a journalist and photo-reporter since 1980 travelling 89 countries of the world.

His work appears regularly in the most important Italian and foreign magazines and newspapers.

In 2010 he created photographic exhibit which is a visual meditation on the written word. In his exhibit, Battaglini narrates the story of loss and regeneration of memory through intense macro-photographic views of the pages of books chewed by time and mites.

The exhibit has been shown in libraries and galleries throughout Europe. He is also author of numerous books, illustrated books and photo-exhibitions in Italy, Switzerland, Poland, France and Argentina.
